# oak9 Partner Program

Increase your services revenue and profit margin

oak9 Differentiates Your Cloud Services

- ✓ Add **high-margin oak9 product resale** to services engagements

- ✓ Augment your **DevSecOps offerings**, increasing revenue & profit

- ✓ Drive **net-new business** using oak9 for cloud assessments

- ✓ Deliver secure & compliant **app modernization** with oak9

- ✓ Provide cutting-edge **security leadership** to your clients

Build security into cloud native architecture design → Automatically catch and fix design gaps before deployment → Continously and dynmaically monitor Infrastructure as Code (IaC)

Join the oak9 Partner Resale or Referral program!

🚀 **Joint marketing and events**

📣 **Quarterly product roadmap**

⚡ **Fast onboarding and sales enablement**

🧑 **Dedicated customer sucess manager**

"Imagine having a Senior Director of Security review your engineers' infrastructure changes every night to catch and resolve security design flaws for less than the cost of a Junior QA Analyst. That's what oak9 gives us...while maintaining strict HITRUST compliance to serve the largest health plans in the US with confidence."

- Alec Zopf, CTO Wellth Inc., oak9 customer

oak9 Security as Code

>> Pre-built catalog of Security as Code blueprints dynamically assess every change to cloud infrastructure

>> Native integrations with IDEs, code repositories, CI/CD, and chat ops tools

>> Developers get immediate security feedback through code and receive pull requests with suggested changes

>> oak9's IaC translation engine enables advanced remediation use-cases across the entire SDLC

About oak9

oak9 secures cloud native infrastructure for developers. Like the strength of an oak tree, oak9 removes the complexity of cloud native security to bring customers to cloud 9, blissful happiness. Headquartered in Chicago, oak9 is a Built In 2022 Start-up to Watch backed by key investors Menlo Ventures, Hyde Park Angels and Uncorrelated. oak9 is a partner to AWS, Azure, HITRUST, and HashiCorp, natively supporting Terraform. oak9 supports the Cloud Security Alliance (CSA) and Open Web Application Security Project (OWASP). Say hello on social media or visit oak9.io for more.
